Page numbers in *italics* refer to illustrations.

A

acupuncture theory, and vegetative dystonia 141
 adipositas 147–149
 – treatment schedule 149
 adipositas circumscripta oedematosa 150–152
 adnexitis, treatment schedule 117
 air heating, inside cups 41–42, 42
 alternating applications, naturopathic methods 55
 amenorrhoea, treatment schedule 119
 angina pectoris 80–82
 ankylosis 104
 anorgasmia 122, 123
 application methods in cupping 6–7
 arthritis, rheumatoid 105–106
 arthrosis deformans, knee joint 108
 asthma, bronchial 65–66
 – cupping vs. conventional treatment 161
 autourine therapy 15, 66
 axons 25, 26

B

bedridden patients, cupping therapy 44–45
 bile duct disorders 95–98
 bladder, inflammation 135–137
 – treatment example 136
 – treatment schedule 136
 blocked regulation 6, 37, 158
 bloodless cupping 6–7
 blood pressure, abnormal 83–86
 brain 26
 bronchial asthma 65–66
 – cupping vs. conventional treatment 161
 – treatment schedule 66
 bronchial catarrh 67–70
 bronchitis 67

– influenzal 70, 71
 – treatment examples 69
 – treatment schedules 68
 bronchopneumonia 70, 71, 76
 – cupping vs. conventional treatment 160

C

cardiovascular disease 80–86
 – treatment examples 81, 82
 – treatment schedule 81
 catarrh, bronchial 67–70
 cellulitis 150–152
 – treatment schedule 151
 cerebrospinal nervous system 26, 27, 28
 chemical drugs 3, 6, 7, 32, 37, 44, 54, 158
 chemotherapy 79, 88
 children, cupping therapy 42–43
 cholestasis syndrome 96
 circulatory system 20
 – *see also* venous disorders
 cirrhosis, liver 92, 93
 climacteric disorders 119–122
 – treatment examples 120, 121
 – treatment schedule 121
 clinical applications, cupping 31–52
 complaints
 – intensification 38
 – persistence 37–38
 – reluctant improvement 36–37
 complications, cupping 45–46, 52
 constipation 101–103
 – example treatment 102
 contraindications
 – dry cupping 48
 – wet cupping 52
 conventional medicine, and cupping therapy 155–163
 coronary heart disease 80–82
 – treatment examples 81, 82
 – treatment schedule 81

- coxarthrosis 108
 cupping massage
 – as alternating treatment
 – coronary heart disease 81
 – hypotension 84
 – neuritis 140
 – spinal column disorders 111, 113, 114, 115
 – and migraine 58
 – technique 46–48
 cupping therapy
 – bedridden patients 44–45
 – children 42–43
 – clinical applications 31–52
 – vs. conventional medicine 155–163
 – documentation 55
 – elderly patients 43–44
 – technique 41–42
 – *see also* dry cupping; wet cupping
 cups, *see* suction cups
 cutivisceral reflex paths/tracts 10, 11
 cystitis 135–137
 – treatment example 136
 – treatment schedule 136
- D**
 definition of cupping 5
 dendrites 25, 26
 dermatomes 10
 dermatopanniculitis deformans 150–152
 diagnosis, and therapeutic success 36–39
 dieting 147–148, 151
 digestive organs/system 19–20, 87–103
 disease, definition 157
 documentation of treatment 55
 dry cupping 6–7, 33–48
 – contraindications 48
 – diagnosis 33–39
 – indications 48
 – as regulation therapy 14–15
 – as segmental therapy 9–14
 – *see also* cupping therapy
 dysmenorrhea, treatment schedule 119
- E**
 ear, middle, inflammation 60–62
 effects of cupping 5–6, 16–17
 – exceptional cases 45–46
 elbow pain 109
 elderly patients 43–44
 empyema 96
 endometriosis, treatment schedule 117
 enteritis, *see* intestinal disorders
 equipment, for cupping 39, 41
 erectile dysfunction 129–132
 exceptional cases, cupping effects 45–46
 extravasation/extravasate 5, 6, 7, 15, 35
- F**
 fat storage 150
 fatty liver 92
 focal disturbance 13–14, 22–24
 functional cycle 24, 25
 functional disturbances, diagnosis 34
- G**
 gallbladder disorders 95–98
 – treatment example 97
 gallstones 96
 gastric catarrh 87–89
 gastritis 87–89
 – treatment examples 88, 89
 – treatment schedule 88
 governing vessel 141
 gynecological disorders 116–125
 – *see also* menstrual disorders; sexual malfunctions
- H**
 headache 56–57
 – treatment example 57
 head disorders 56–64
 Head"s zones 9–13
 – segmental diagnosis 39, 40
 health, definition 157
 hepatic disorders, *see* liver disorders
 hepatitis 92–93
 hip joint, chronic inflammation 108
 history of cupping 3–4
 hormonal control system 21–22
 hyperemia, at cupping site 35
 hypermenorrhea, treatment schedule 119
 hypertension 85–86
 – treatment example 86
 – treatment schedule 85
 hypotension 83
 – treatment example 84
- I**
 immune system 21, 158
 impotence 129–130

impulses, nervous system 25
 indications
 – dry cupping 48
 – wet cupping 51–52
 influenzal disorders 70–73
 – cupping vs. conventional treatment 160
 – treatment example 72
 – treatment schedule 71
 internal organs, and Head's zones 39, 40
 intervals, cupping treatment 50, 55
 intestinal disorders 98–103
 – treatment examples 100
 – treatment schedule 99
 ischialgia 138

J
 jaundice 92

K
 kidneys, inflammation 133–135
 – treatment example 134
 – treatment schedule 134
 knee joint, inflammation 108

L
 laryngitis 74
 liver, congestion 92, 93
 liver disorders 92–95
 – treatment examples 94, 95
 – treatment schedule 93
 locomotor system 19, 104–115
 lumbago 113–115
 – treatment 114, 115

M
 massage 7
 – cupping, *see* cupping massage
 – and varicose veins 146
 materials, for cupping 39, 41
 menopause, *see* climacteric disorders
 menorrhagia, treatment schedule 119
 menstrual disorders 116–119
 – treatment examples 117–118
 – treatment schedules 117, 119
 middle ear, inflammation 60–62
 migraine 57–59
 – cupping vs. conventional treatment 162
 – treatment example 59
 – treatment schedule 58

N
 neuropathy 34
 – and conventional medicine 33–34, 155–156
 – prejudices against 34, 156
 nephritis 133–135
 – treatment example 134
 – treatment schedule 134
 nerve cell 25, 26
 nervous system 22, 138–143
 – cerebrospinal 26, 27, 28
 – functional cycle 24, 25
 – functional unity 24–30
 – parasympathetic 30
 – sympathetic 30
 – vegetative 28–30, 29
 neuralgic disorders 138–139
 – treatment example 140
 – treatment schedule 139
 nutrition 147–148, 151

O
 obesity 147–149
 – treatment schedule 149
 obstipation 101
 organs, internal, and Head's zones 39, 40
 organ systems 18–22
 orgasm, female 122, 123
 otitis media 60
 – treatment schedule 60
 overweight 147–149
 – treatment schedule 149

P
 pancreatitis 90–92
 – treatment examples 91
 – treatment schedule 90
 patient positioning 51
 peri-arthritis humeroscapularis 107
 pharyngitis 74
 pleurisy 77–79
 – treatment example 79
 – treatment schedule 78
 pleuritis, cupping vs. conventional treatment 160
 pneumonia 76–77
 – cupping vs. conventional treatment 160
 – influenzal 70, 71
 prostatitis 125–129
 – treatment examples 127–128
 – treatment schedule 127

R

- redness, at cupping site 35
- reflex paths/tracts, cutivisceral 10, 11
- regulation therapy 14–15
- regulatory blockage 22–24
- reluctant improvement 36–37
- reproductive organs 21
 - female 116–125
 - male 125–132
- respiratory tract 20, 65–79
- rheumatic disorders 104–110
 - cupping vs. conventional treatment 161
 - treatment examples 107–109
 - treatment schedule 107
- rheumatic fever, acute 105
- rheumatism 104
- rheumatoid arthritis 104, 105, 106

S

- sciatica 138
- segmental diagnosis 39
- segmental therapy 9–14
- segment reactions 12
- segments, Head's zones 11, 12
- self-regulatory mechanisms 15, 18–30
- sensory organs 21
- sexual malfunctions
 - in men 129–132
 - treatments 130–131
 - treatment schedule 130
 - in women 122–125, 124, 125, 126
 - treatments 124, 125, 126
 - treatment schedule 123
- shoulder stiffness, painful 107
- sinusitis 62–64
 - treatment example 64
- skin, paleness at cupping site 36
- sore throat 73–76
 - treatment example 75
 - treatment schedule 74
- spinal column disorders 110–115
 - treatment schedule 111
 - and vegetative dystonia 141
- spinal cord nerves 26, 27, 28

- spondylitis 110–111, 111
- spondylosis 112–113, 113
- stimulatory cycle 24
- suction cups
 - and accessories 39, 41
 - numbers needed 50, 54
- symptoms, *see* complaints

T

- tennis elbow 109
- therapeutic concepts 7–8
- therapeutic success, as diagnostic evidence 36–39
- throat disorders, treatment schedule 74
- tinnitus 60
 - treatment schedule 61
- tonsillitis 73
- treatment record 55

U

- urinary system/tract 20–21, 133–137
- urine
 - as asthma treatment 66
 - as regulating substance 15

V

- varicose veins (varices) 145–146
- vegetative dystonia 140–144
 - treatment examples 142–143
 - treatment schedule 142
- vegetative ground system 19
- vegetative nervous system 28–30, 29
- venous disorders 145–146
 - treatment schedule 146
 - *see also* circulatory system

W

- weight reduction 147–148
- Western medicine, and cupping therapy 155–163
- wet cupping 7, 49–52
 - and asthma 66
 - in congestive hyperemia 78
 - techniques 49–52
 - *see also* cupping therapy
