

## Warm Tips:

### 1.How to hold the device:

Hold the beauty bar at the bottom, about 1/3 of the handle. Because if you hold too near to the T-shape head, it might weaken the vibrating effect as the vibration will transfer to your hand.

### 2.For facial skin care:

Gently apply the beauty bar on your facial skin, and slowly move it from downwards to upwards, from inner to outside .

### 3.For hands and feet skin care:

The skin of your hand back shows your age easily. You can use it for hands skin care and other skin care.

### 4.Subtle skin care.

For the subtle skin parts, such as the skin beside your nosewing, you can use the round part of the T-shape to do massage, and enjoy skin care easily.

### 5.Acupoint massage.

You can massage your body with the round part of the T-shape head. 2-3 seconds is enough.

6.The beauty bar is water proof. You can use it to massage your body when doing sauna or taking bath.

7.Don't massage your face directly if you have made up.

8.After cleaning your face, you can apply the toner or serum on your face before using the electronic beauty bar.

## Attention:

1.If your body or skin feels abnormal during use of the beauty bar, please stop using it.

2.Pregnant women, people with palpitation, hypertension, cardiovascular disease, epileptic and cancer are forbid to use.

3.Do not hit the device with high pressure.

4.If do not use it for a long time, please take out the battery.

## Use Manual

24k Golden Beauty Bar-Fashion  
ideas originate from Japan

There is weak electric current exist in human body. Normal current circulation can maintain normal blood circulation and lymphatic loop, and make your metabolism exuberant on your face, and keep facial skin full of elasticity and vitality. But as you aging, the active acid elements caused by ultraviolet rays and pressure etc. make your skin cells lose balance in negative & positive ions. The human positive ions which have a great negative effect on facial skin rise, and lead to unsmooth of current circulation. As a result, the skin micro circulation blocked, metabolic waste and excess water cannot be discharged and constantly accumulated in the skin. At last, the cell activity lowered, and caused skin problems such as facial oedema, fine lines, dehydrations, skin loose and freckle.

Medical specialist says, pure gold is a very stable material. After friction and heated, it will emit negative ions and enter into the dermal layer of skin. The negative ions will echo with the positive ions in human body and then eliminate free radicals in cells, balance the body to organize the liquid acidity, and promote the ions in blood organization flow. Thus the blood circulation would get better, and the metabolism exuberant in your body will be quicker, the skin tissue will produce activation from inner body, this phenomenon is called gold's "Recovery function". Pure gold ions are also called active gold, is a active material of which 90% can be absorbed by skin.

The 24k Golden Beauty Bar with fashion ideas originated from Japan adopts pure gold 24k T-shape head. The T-shape head would vibrate 6000 times per minute after being energized. The vibration stimulates skin suitably, and because the negative pure gold ions caused by vibration has same wavelength with the natural electric current in human body, so the current circulation in your body will get right by gliding the T-shape head slightly on your skin. Finally balance electric potential, promote metabolism

exuberant and activate cells, so as to promote skin renewal, eliminate facial oedema, lighten fine lines, make your skin not only whitened, but also healthy, moist, full of elasticity and rejuvenated.

### One step solve Facial problems—24k Golden Beauty Bar with 6 functions

#### Function 1-----Lymphatic Detox Therapy

The T-shape head of 24K Golden Beauty Bar is made of 24k pure gold. This T-shape head can emit micro-current to stimulate facial cells, thus balance the skin potential, and get through facial lymph circulation, enhance function low cells' protein synthesis and oxidation, ion exchange and nutrient penetration. Promote the elimination of the waste, eliminate redundant toxins.

#### Function 2-----Lifting

The voltage of one normal cell is 0.06-0.07V, resulting from reasons such as air pollution and working press, the cell voltage might reduce to 0.02-0.03v, so the skin would be flabby. The 24k Golden Beauty Bar can activate cell activity, enhance cell energy, finally achieve the function of lifting.

#### Function 3-----Wrinkle Removing

24k Golden Beauty Bar can emit pure gold negative ions. These ions can stimulate dermal level to emit more collagen, fill up the lost or shrinked collagens, thus achieve the function of removing wrinkles.

#### Function 4-----Slimming Face

The 24K Golden Beauty Bar vibrates 6000 times per minute. This can stimulate blood circulation rapidly, and the temperature below the skin would rise rapidly, thus activates cell activity, tighten facial muscle, removes wrinkle and unnecessary fat. In the mean time, it stimulates the skin to emit new collagen, and achieve facial slimming function.

#### Function 5-----Lightening and Tender Skin

The T-shape head of 24K Golden Beauty Bar can give cells with micro current,

activate cells activity, enhance function low cells' protein synthesis and oxidation, ion exchange and nutrient penetration. Promote the elimination of the waste, eliminate redundant toxins. Improves facial blood circulation, minimize pore and make your skin more white and tender.

### Function 6---, Anti aging and Rejuvenation

24k Golden Beauty Bar can emit pure gold negative ions. The ions will enter into dermal level of skin, and echo with the positive ions in human body, then eliminate the free radicals in cells, promote blood circulation get better, increase metabolism, make your skin tissue activate from inner body, wake up your skin and realize rejuvenation.

#### How to use:

1. Install a 5V battery correctly. Then turn on the rotary switch at the lower part of the handle. You can choose the appropriate massage strength level according to your skin type.
2. After cleaning your face, gently glide the T-shape head of the beauty bar on your face to massage your face. Stay for 3 seconds on each part of your skin, then move the T-shape head from inner to outside.
3. You can massage the skin with wrinkles for more times, including your neck, the skin around your eyes and your lip.
